

MOBILITY SERVICE MANUAL

2025

MOBILITY SERVICE

Dear community members,

LIUC University, as part of its commitment to more sustainable mobility, **has activated a shuttle service dedicated to students, faculty, and staff.**

The service, created in collaboration with **Busforfun.com S.r.l.**, a leading international mobility company in the commuting and events sector, was designed with the specific needs of the exhibition community in mind.

How to use the service?

Registration

To use the shuttle service, you will need to register on the dedicated platform using your reserved company code: **BusN@vettaLIUC2025**

To register, you must use your LIUC domains:

@liuc.it
@stud.liuc.it

You can register by accessing this link: <https://commuting.busforfun.com/registrazione?lang=en>
or by scanning the QR Code below:

Booking

For each trip on the BusForFun platform, you must book at least 24 hours before departure and, if necessary, cancel at least 24 hours in advance.

Use the link: <https://commuting.busforfun.com/listino?azienda=102&lang=en>
or scan the QR Code below:

MOBILITY SERVICE

The Importance of Booking

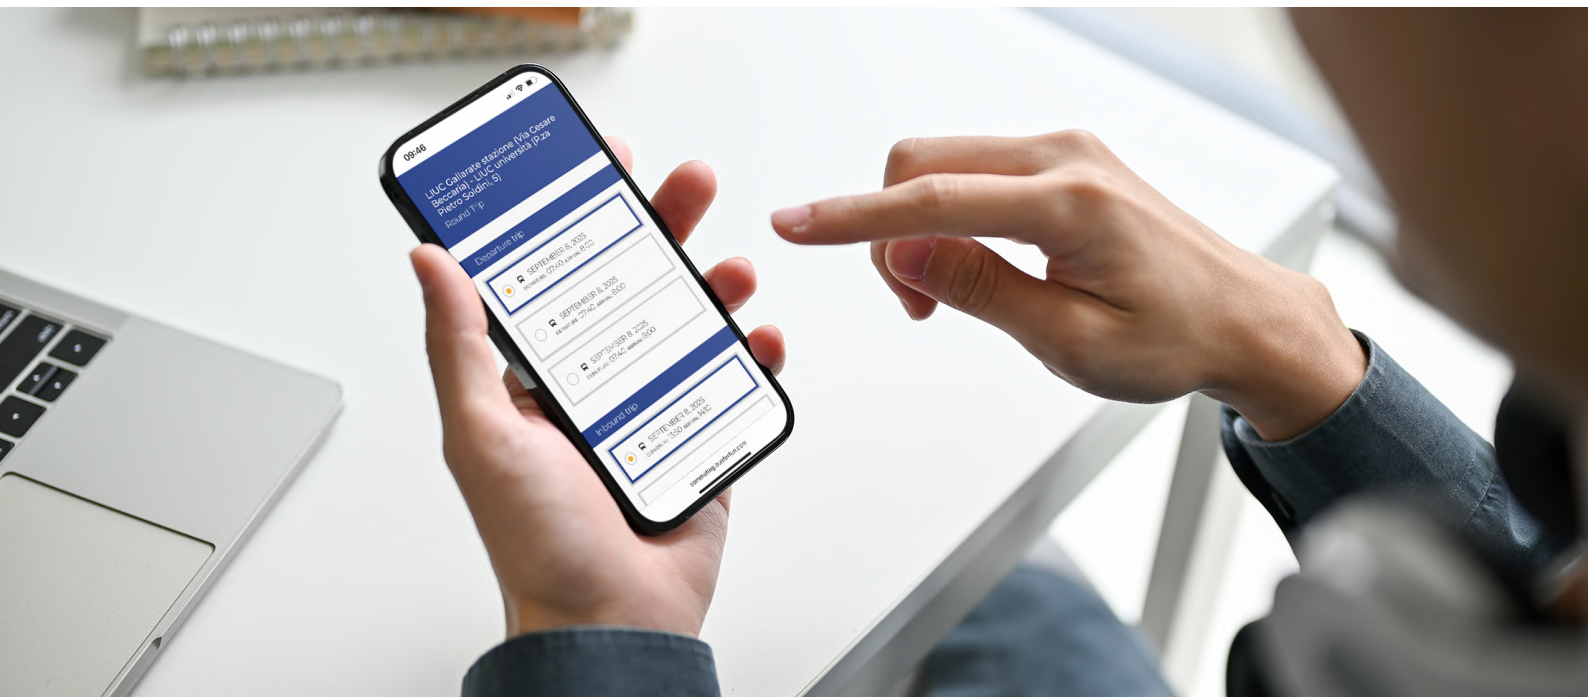

Book the shuttle: a small step, a big impact.

Booking your seat on the shuttle is mandatory to access the service, but above all it is a simple action that contributes to a more **efficient and sustainable**

Thanks to booking, we can:

- **Avoid overbooking** and travel more comfortably;
- Know in advance the **number of passengers** and **better organize** the trips;
- Use the **right number of vehicles** without waste;
- Collect anonymous data to **improve the service over time**.
- **Reduce environmental impact** with clear reports and concrete actions.

BusForFun Business is the corporate division of Busforfun.com S.r.l., a leading European **mobility company specializing in sustainable, smart, and customized transport solutions**. With a strong national and international presence, the company is the go-to **partner for public and private organizations looking to provide commuting services, corporate mobility, and event transportation**.

Tailor-Made Solutions: every project is designed based on the real needs of users, with attention to comfort, punctuality, and safety.

Commitment to Sustainability: all services are designed to reduce environmental impact through route optimization, data monitoring, and emissions tracking.

Technology and Data: AI and integrated systems for booking, real-time monitoring, and generating reports useful for future planning.

Multisector Experience: active projects with companies, universities, public institutions, festivals, and major events across Europe.

MOBILITY SERVICE

BusForFun is constantly committed to minimizing CO₂ emissions to enhance the environmental responsibility of each client company.

We are deeply committed to achieving Net Zero by 2030, transitioning to a fully electric and hydrogen-powered fleet through our national network of operational partners.

Sharing the home-to-work commute contributes not only to environmental sustainability but also to improving employees' quality of life.

Shared transportation is fuel-efficient and produces a significantly lower level of greenhouse gas emissions. Some analyses indicate that transporting 100 people saves 403 kg of CO₂, which amounts to 91 tons of CO₂ saved in one year.
